

_INFRASTRUCTURE LOG

_DAY 44: This lack of productivity is out of control. No one is getting anything done. What we're using isn't working. Gil's had enough. He moved everyone into one cubicle. A "collaboration" cubicle.

_Note to self: collaborating means showers are a must.

_DAY 46: I'm going with IBM Lotus® Notes® and Domino® instead. It's far more than e-mail; it's an open platform designed for collaboration. It has proven security features and it's packed with productivity enhancers like document sharing and custom app development. It's easy to deploy, and it's flexible enough to integrate across multiple platforms, including J2EE™ and Linux®.

_OK, who sat on my lunch?
